

Minutes of the Meeting

Day

Day 6, 11:30 AM

Venue

Jain university FET, online internship with The FutureSense technologies

MEETING ATTENDEES

- Jain University school of engineering and technology, Kanakpura campus.
- Computer science and engineering (Artificial intelligence and Data Engineering)-second year students.
- And FutureSense mentors

Agenda

- To continue with the basics of SQL and to practice more questions regarding the same.

Objectives

- To learn the intricacies in DCL commands.
- To execute database schema related executions.
- Practice them using discussions 2 of the GitHub link given by the mentor.

Key Takeaways

- We were able to use SQL to create a database based on the schema provided.
- This will help us to learn more about handling data in a corporate set up.
