Minutes of the Meeting

Date and Time	Day-9, 06/04/2024, 11:30 AM
Venue	Jain university FET, Room 102

MEETING ATTENDEES

- Jain university school of engineering and technology, Kanakpura.
- Department of computer science and engineering-Artificial Intelligence and Data engineering(4th semester)-Batch 2022-2026

Agenda

- Work continuity and assessing the records followed by evaluation.
- To learn and understand the use of complex operators and patterns in SQL.

Objectives

- To engage with the mentor and clear the queries.
- To understand the use of operators like any,all,like,between,having etc
- To execute and implement them using the discussion forum 51.

Key Takeaways

- Got a comprehensive overview about the operators used in sql.
- Ability to implement and execute the queries related to it.
- This will help us to gain more insights into working in a corporate set up.
